

problem = there's too much trash

solution = trash can that can weigh your trash

concept = wifi/phone connectivity — use arduino → bluetooth
usb output

sensors — HX711 amplifier — arduino uno — [computer]
bluetooth chip

Materials List:

- Arduino Uno Board
- HX711 Amplifier & Weight Sensors
- LCD Display -
- Bread Board
- Menards Bucket
- Computer → Arduino App.
- Bread Board Connector Wires.
- Arduino to USB connection
- Bluetooth Wireless, Arduino to Computer Connection
- Circular wooden board with radius 4.9 in.
